Program max - LTC / ARV / as-is	88% / 72% / 80%
As-is / ARV value	\$300,000 / \$480,000

ESTIMATED CASH TO CLOSE

Origination fee (2%)	\$6,857
Underwriting / processing / legal	\$3,500
Credit report (avg)	\$200
Appraisal (est., POC)	\$950
Title / escrow / settlement (est.)	\$5,000
Down payment (equity)	\$60,000
Estimated cash to close	\$75,557
Liquidity to show (2 mo)	\$81,986

HOW YOUR LOAN AMOUNT IS BUILT

Your maximum loan is the lesser of four program limits - the most conservative one sets your number. (1) The initial advance is capped at 80% of the lower of purchase price or as-is value. (2) 100% of your rehab budget is financed and released in draws as work is verified - no rehab comes out of pocket. (3) The total loan can't exceed 88% loan-to-cost (purchase + rehab). (4) The total loan can't exceed 72% of the after-repair value. On this deal, the 80% as-is (initial advance) cap is the binding limit.

ELIGIBILITY SNAPSHOT

Verified experience tier	Tier 1 - experienced (3+ projects)
Estimated FICO	720

* Meets the Standard Program guidelines.

TERMS, CONDITIONS & DISCLOSURES

- Nature of this document.** This Preliminary Term Sheet is an indicative summary of potential financing terms only. It is NOT a loan commitment, approval, pre-approval, rate lock or guarantee to lend, and it creates no obligation on the part of YS Capital Group or the prospective borrower.
- Subject to underwriting.** Any financing remains subject to a complete application, satisfactory underwriting, independent appraisal / valuation, title and lien review, insurance, and entity, background and final credit approval. Final pricing, leverage, fees and net proceeds are determined at closing and may differ from the figures shown.
- Business purpose only.** This is business / investment-purpose financing secured by non-owner-occupied real property. It is not an offer to extend consumer credit and is not subject to consumer-mortgage (TILA / RESPA) disclosures. A personal guaranty and a first-lien position are required.

Standard Program · business-purpose bridge financing

YS Capital Group · NMLS 2609746 · Issued July 2, 2026

4. Interest, draws & costs. Interest accrues interest-only on the outstanding loan balance. Rehab funds are advanced by reimbursement draw after inspection, and the borrower carries interest on drawn amounts. The title / escrow figure is a planning estimate based on the state, loan size and transaction type (transfer and mortgage taxes are separate); the settlement agent issues the binding quote at closing.

5. Validity & acceptance. This term sheet is valid through July 16, 2026 for a property located in TX. It is not binding unless and until it is accepted in writing by the borrower below and countersigned by an authorized representative of YS Capital Group.

Your pricing at every leverage level

Lower leverage means less risk to the lender - so it earns a lower rate. The table shows the loan amount, cash to close and note rate at each leverage step this scenario supports. The highlighted row is the option you selected; taking less leverage trades a smaller loan for a better rate.

Leverage (LTC)	Loan amount	Cash down	Payment / mo	Note rate
85.1% (maximum)	\$342,857	\$60,000	\$3,214/mo	11.25%
85.1%	\$342,857	\$60,000	\$3,214/mo	11.25%
85.1%	\$342,857	\$60,000	\$3,214/mo	11.25%
85.1%	\$342,857	\$60,000	\$3,214/mo	11.25%
85.1%	\$342,857	\$60,000	\$3,214/mo	11.25%
85.1%	\$342,857	\$60,000	\$3,214/mo	11.25%

Rates shown are the borrower note rate, interest-only, before third-party closing costs. Origination is 2% of the loan at every level. Final pricing, leverage and proceeds are confirmed at closing and may differ.

This term sheet was generated from the inputs below, entered through the YS Capital Term Sheet Studio. This page records exactly what was provided and how the loan amount and leverage were determined.

BORROWER & CREDIT (AS ENTERED)

Borrower / entity	Audit LLC
Credit score used	720
Experience tier	Tier 1 - experienced (3+ projects)
Experience entered	6 fix & flip

PROPERTY & PROJECT (AS ENTERED)

Property	-
State	TX
Loan purpose	Purchase
Strategy	Fix & flip
Purchase price entered	\$300,000
As-is value entered	\$300,000
After-repair value (ARV)	\$480,000
Construction / rehab budget	\$90,000
Requested term	12 months
Requested interest reserve	4 months

HOW THE LOAN AMOUNT WAS DETERMINED

Cost basis - lower of price / as-is	\$300,000
Initial advance at closing	\$240,000
= 80% of as-is value (initial LTV)	
Construction holdback - 100% of budget	\$90,000
Financed interest reserve (4 mo)	\$12,857
Total loan amount	\$342,857

RESULTING LEVERAGE & PRICING

Loan-to-cost (LTC)	85.1%
Initial / as-is LTV	80%
Loan-to-ARV	71.4%
Note rate (interest-only)	11.25%
Origination	2% of loan
